

AI WeatherWise — 8 Phase Structure

4. Project Planning Phase:

- ❖ Important: Your uploaded document does not contain a separate detailed Project Planning Phase such as a Gantt chart, weekly schedule, task allocation, or project timeline.
- So, if your college specifically requires Phase 4, do not claim that these already exist in your project file.
- Based on your document, the planning-related information that can be used is the sequence of implementation activities:

- Your document organizes the implementation into Epic 2, Epic 3, Epic 4, and Epic 5, which can support this phase structure.
- You would need to create a separate planning document if your evaluator expects a formal timeline or schedule.
